

We are a platform for live art, embracing performers of all flavors with a particular focus on neo-cirque disciplines. We produce our own events and are available for hire globally. Our focus is threefold:

- A portal through which independent performance artists can showcase their works in partnership with native Phantom Circus talent. We nurture and support creativity in all forms
- A provider of customized performance entertainment services ranging from image-bolstering corporate events to whimsical and fantasy-driven celebrations
- An advocate for art in the realms of creation, incubation, social identity, and humanism

The Phantom Circus embodies a strong belief that art is a unifying factor in a world that can feel bent on division. We feel that inclusion, support, and love are not unrealistic utopian ideals; on the contrary, they are at the core of how we do business.

We are unity.

We are magic.

We are The Phantom Circus.
